## EliteDesigns® Variable Annuity

## VARIABLE ANNUITY FACT SHEET

Overview	
Issue Ages	0-90
Purchase Payment Minimums	<ul> <li>Initial Purchase Payment: \$50,000</li> <li>Subsequent Purchase Payment: \$500</li> <li>Automatic Purchase: \$50</li> </ul>
Plan Types	Non-qualifed; IRA; Roth IRA
Inherited Non–qualified Annuity Stretch Option	The stretch annuity option on non-qualified incoming transfers allows the non-spousal beneficiary to take death distributions over his or her life expectancy.
Fees	<ul> <li>Annual M&amp;E Contract Value less than \$500,000: 0.20%</li> <li>Annual M&amp;E Contract Value equal to or greater than \$500,000: 0.00%</li> <li>Annual Administration Fee: 0.25% for all subaccounts</li> <li>No Annual Policy Fee</li> </ul>
Optional Riders	Return of Premium Death Benefit   Annual Fee: 0.35%  Provides beneficiaries the greater of the return of Purchase Payments (less pro rata adjustments for withdrawals, less fees and any premium tax) or the current Contract Value if you die before annuity payments have begun or prior to the payout phase.  This feature protects the death benefit from any downside risk from the underlying fund selections. Owner and any Joint Owner must be age 80 or younger on Contract Date. Must be purchased at Contract issue.
Death Benefit	The Standard Death Benefit is Contract Value.
Loan Provisions	None
Withdrawals	Systematic withdrawals   \$100 minimum   Available immediately Withdrawals subject to ordinary income tax before age 59½; may be subject to a 10% IRS penalty tax
Withdrawal Charges	No withdrawal charges or contingent deferred sales charge (CDSC)
Fixed Period Non-life Annuity Option	This annuity option allows you to distribute taxes on gains over time instead of upfront, so you can receive more after-tax income in earlier years of retirement — without losing control over your Contract. Choose to receive payments for a fixed number of years between 5 and 30 years. (This option is one of a number of annuity options available, and may not be suitable in every situation. Discuss which annuity option may be best with your financial professional.)
Investment Transfer Strategies	<ul> <li>The EliteDesigns® Variable Annuity combines the advantages of a variable annuity with the power of a diverse investment platform. You can diversify your tax-deferred portfolio through a wide variety of investment options, ranging from traditional equity and bond funds to sectors, currency, commodities and more (diversification does not assure a profit). Our fund partners include some of the most well-known and respected asset managers in the industry today.</li> <li>Target Portfolios by Mesirow: Five model portfolios based on your risk level are available from Mesirow Financial.¹</li> <li>Free investment transfer between variable subaccounts</li> <li>The Rydex VIF and certain Guggenheim VIF underlying funds are designed for active trading.</li> <li>Trading rules apply to all underlying funds that are not designed for active trading (see annuity prospectus for details).</li> </ul>

<sup>&</sup>lt;sup>1</sup> Target Portfolios by Mesirow are unmanaged, derived from the investment options available in EliteDesigns®, and the provision of such model portfolios is not intended to be investment advice. All brokerage services, including investment advice, are provided by your financial professional and his/her firm.
