2. Systematic Transfer Enrollment Program (STEP) Information

You may allocate all or part of your purchase payment to the STEP Account, which is part of the Company's Fixed Account. The rate of Current Interest declared by the Company for the STEP Account will be fixed for the applicable period, which is the four-month or 12-month period that begins as of the Valuation Date your purchase payment is applied to the STEP Account. Please select below the applicable STEP Account Period, the Subaccounts to which monthly transfers from the STEP Account will be made, and the percentage to be allocated to each such Subaccount. The Company will transfer your Contract Value allocated to the STEP Account to the Subaccounts that you select on a monthly basis over the STEP Account Period. The Company will effect each transfer on the monthly anniversary of the date that your purchase payment is allocated to the STEP Account, and the first such transfer will be made on the first monthly anniversary of that date. The amount of each monthly transfer is found by dividing Contract Value allocated to the STEP Account by the number of months remaining in the STEP Account Period.

- I understand that, when compared to a Fixed Account dollar cost averaging program, a higher interest rate is credited to the STEP Account in return for certain restrictions. For example, all funds must be transferred out of the STEP Account within 12 months, no new premiums may be added after the initial premium allocation, and my allocation instructions cannot be changed. By contrast, I may start or stop a dollar cost averaging program from the Fixed Account at any time (subject to the minimum accumulation value requirement), add new premiums to the program, or change my allocation instructions.
- I understand that interest credited to the STEP account in excess of our actual interest earned will be recovered by the Risk Charge in later policy years.
- I understand that this form must be submitted before the funds are received.
