¹ The current yield of a Money Market fund more closely reflects the current earnings of the fund than the total return. **You could lose money by investing in a money market fund (the "Fund"). Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.**

² This fund uses extended performance, which generally means that the fund manager calculates performance for the share class of the fund listed based upon on performance of a previous share class. Thus, older performance may have been higher or lower if the share class listed was in existence during such time periods. For specific periods using extended performance please consult the fund's prospectus.

LIMITED - This investment option is closed to new purchases or transfers unless an owner has an existing balance in this investment as of the date of the closure.

The Guaranteed Group Annuity (also referred to as the Fixed Account Option) is a group unallocated fixed annuity contract issued by Security Benefit Life Insurance Company ("SBL"), contract form GV4586 (12-03)U. The obligations under the Fixed Account option are guaranteed by SBL's General Account in the event that the assets are not sufficient to meet the Fixed Account obligations.

Waiver Type C - The difference between the gross expense ratio and the net expense ratio represents a contractual waiver of fees. A contractual waiver is generally provided for a specified period of time.

Waiver Type V - The difference between the gross expense ratio and the net expense ratio represents a voluntary waiver of fees. Unlike a contractual waiver, a voluntary waiver is not provided for a specified period of time and may end without notice. Refer to the fund's prospectus for details about this voluntary waiver.

The average annual total return figures assume a one-time investment of \$1,000 at the beginning of each period. All dividends are assumed to be reinvested. NAV performance returns do not reflect deduction of any front-end sales loads or contingent deferred sales loads that may be imposed by the funds. Such loads are waived by the funds for purchases made through this Program. If you purchase these funds outside of this Program, you may be subject to these charges. If the sales loads were reflected in the accompanying performance data, it would reduce the quoted performance. In addition, the NAV performance numbers do not reflect deduction of any Trust/Custodial Account charges, which would reduce the quoted performance. Because this performance information does not reflect deduction of Trust/Custodial Account charges, the quoted performance is higher than the performance experienced by your Trust/Custodial Account.

Triple-digit or high double-digit performance is attributable, in part, to unusually favorable market conditions and may not be repeated or consistently achieved in the future. Recent market volatility may affect performance so that current performance may be lower. Performance, especially for short time periods, should not be the sole factor in making your investment decisions.

The SFR Program is offered through Security Distributors. The SFR 401(k) and 401(a) Programs are Trust Accounts under §401 of the Internal Revenue Code. The SFR 403(b)(7) ERISA and 403(b)(7) Voluntary Programs are Custodial Accounts under §403(b)(7) of the Internal Revenue Code. The SFR 457 Governmental Program and the SFR 457 Tax Exempt Program are Trust Accounts under §457(g) of the Internal Revenue Code.

Broker Compensation

Security Distributors pays commissions to the selling broker/dealer in connection with contributions to your custodial account. Security Distributors may use any of its corporate assets to pay such commissions and other distribution costs. A portion of any payments made to the selling broker/dealer may be passed on to the registered representative in accordance with the broker/dealer's internal compensation programs. Security Distributors pays commissions that range in amount from 0.00% to 5.00% as a percentage of initial and subsequent contributions at the time it receives them. The commission amount generally varies according to the custodial account fee option selected. Administrative, Marketing, and Support Service Payments

Security Distributors (and its affiliates) may receive payments from the underlying funds, their advisers, sub-advisers, and distributors, or affiliates thereof, in consideration for distribution, administrative, marketing, and other services Security Distributors (or its affiliates) provides. Security Distributors negotiates these payments, which may differ by underlying fund (sometimes substantially), and the amounts Security Distributors (or its affiliates) receive may be significant. Making these payments may provide an adviser, sub-adviser, or distributor (or affiliate thereof) with increased access to the Security Distributors and its affiliates. Security Distributors and its affiliates anticipate they will receive payments from the underlying funds, their advisers, sub-advisers, and distributors, or affiliates thereof in the form of 12b-1 fees, investor services fees and administrative payments that range in total from 0.00% to a maximum of 0.65% of the average net assets of the account invested in the underlying fund on an annual basis. This does not include the arrangements with certain of the investment advisers, sub-advisers, or distributors (or affiliates thereof) of certain of the Underlying Funds in which the payment is not based on the average net assets of the accounts invested in the underlying fund.

Morningstar Rating™ Often simply called the Star Rating, the Morningstar Rating brings performance (returns) and risk together into one evaluation (the Star Rating does not take into account sales loads). To determine a fund's star rating for a given time period (three, five, or ten years), the fund's risk-adjusted return is plotted on a bell curve: If the fund scores in the top 10% of its category, it receives 5 stars (Highest); if it falls in the next 22.5% it receives 4 stars (Above Average); a place in the middle 35% earns 3 stars (Average); those lower still, in the next 22.5%, receive 2 stars (Below Average); and the bottom 10% get only 1 star (Lowest). The Overall Morningstar Rating is a weighted average of the available three-, five-, and ten-year ratings.
