

# **Workplace Retirement Non-ERISA**

## Quarterly Performance Report as of March 31, 2026

**The performance data quoted represents past performance. Past performance is no guarantee of future results. Investing in mutual funds involves risk. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data quoted. Go to [www.SecurityBenefit.com/performance](http://www.SecurityBenefit.com/performance) then choose the product name for the most recent month-end performance.**

<sup>1</sup> The current yield of a Money Market fund more closely reflects the current earnings of the fund than the total return. **You could lose money by investing in a money market fund (the “Fund”). Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund’s sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.**

<sup>2</sup> This fund uses extended performance, which generally means that the fund manager calculates performance for the share class of the fund listed based upon on performance of a previous share class. Thus, older performance may have been higher or lower if the share class listed was in existence during such time periods. For specific periods using extended performance please consult the fund's prospectus.

**LIMITED** - This investment option is closed to new purchases or transfers unless an owner has an existing balance in this investment as of the date of the closure.

Neither Security Benefit nor its affiliates are fiduciaries. This information is general in nature and intended for use with the general public. For additional information, including any specific advice or recommendations, please visit with your financial professional.

**You should consider the investment objectives, risks, charges, and expenses of the mutual funds carefully before investing. You may obtain prospectuses or summary prospectuses (if available) that contain this and other information about the mutual funds by calling our Service Center at 800.888.2461. You should read the prospectuses or summary prospectuses (if available) carefully before investing. Investing in mutual funds involves risk and there is no guarantee of investment results.**

The Guaranteed Group Annuity (also referred to as the Fixed Account Option) is a group unallocated fixed annuity contract issued by Security Benefit Life Insurance Company (“SBL”), contract form GV4586 (12-03)U. The obligations under the Fixed Account option are guaranteed by SBL's General Account in the event that the assets are not sufficient to meet the Fixed Account obligations.

Waiver Type C - The difference between the gross expense ratio and the net expense ratio represents a contractual waiver of fees. A contractual waiver is generally provided for a specified period of time.

Waiver Type V - The difference between the gross expense ratio and the net expense ratio represents a voluntary waiver of fees. Unlike a contractual waiver, a voluntary waiver is not provided for a specified period of time and may end without notice. Refer to the fund's prospectus for details about this voluntary waiver.

**The average annual total return figures assume a one-time investment of \$1,000 at the beginning of each period. All dividends are assumed to be reinvested. NAV performance returns do not reflect deduction of any front-end sales loads or contingent deferred sales loads that may be imposed by the funds. Such loads are waived by the funds for purchases made through this Program. If you purchase these funds outside of this Program, you may be subject to these charges. If the sales loads were reflected in the accompanying performance data, it would reduce the quoted performance. In addition, the NAV performance numbers do not reflect deduction of any Trust/Custodial Account charges, which would reduce the quoted performance. Because this performance information does not reflect deduction of Trust/Custodial Account charges, the quoted performance is higher than the performance experienced by your Trust/Custodial Account.**

Triple-digit or high double-digit performance is attributable, in part, to unusually favorable market conditions and may not be repeated or consistently achieved in the future. Recent market volatility may affect performance so that current performance may be lower. Performance, especially for short time periods, should not be the sole factor in making your investment decisions.

This program is offered as a 401(a) Trust Account under §401 of the Internal Revenue Code (IRC), a 403(b)(7) Custodial Account under §403(b)(7) of the IRC and a 457 Trust Account under §457(g) of the IRC.

### **Morningstar Rating™**

Often simply called the Star Rating, the Morningstar Rating brings performance (returns) and risk together into one evaluation (the Star Rating does not take into account sales loads). To determine a fund's star rating for a given time period (three, five, or ten years), the fund's risk-adjusted return is plotted on a bell curve: If the fund scores in the top 10% of its category, it receives 5 stars (Highest); if it falls in the next 22.5% it receives 4 stars (Above Average); a place in the middle 35% earns 3 stars (Average); those lower still, in the next 22.5%, receive 2 stars (Below Average); and the bottom 10% get only 1 star (Lowest). The Overall Morningstar Rating is a weighted average of the available three-, five-, and ten-year ratings.
