

Double the Income, When You May Need it Most

Security Benefit's Home Healthcare Doublor (HHCD) can provide extra income in the event of a health decline, doubling your rider income.

If you become unable to perform at least two of the six basic activities of daily living (ADLs) after you purchase a Security Benefit annuity with a guaranteed income rider, your rider may allow you to double the withdrawal rate for a

period of time. You'll continue to **receive your doubled income** until the end of the Doublor period, **even if your Account Value falls to zero!**

How It Works

Additional Information

After the Home Healthcare Doubler period ends, the rider income will return to the standard amount. A certification from a licensed physician is required to receive the Doubler and an annual recertification is required. The Home Healthcare Doubler may only be applied for once.

The Home Healthcare Doubler is not available with all of Security Benefit's annuities and is not available in all states. The Doubler's specifications may vary from annuity to annuity, including the length of the Doubler period, and a waiting period applies after contract issue before you may apply for the Doubler. Other qualifications also apply. Please refer to the individual product literature for more details.

Your path *To and Through Retirement*[®]
begins here.
