

A Giant Leap Towards Retirement

Looking to get a jumpstart on your retirement savings, while not having to worry about market risk? TopRidge Bonus Annuity can help!

The TopRidge Bonus Annuity provides a bonus applied to all premiums received within the first year of the contract.¹ The bonus can help jump start your retirement savings, and coupled with the annuity’s tax-deferred status, may allow your contract to increase in value at a faster rate than without it. The bonus percentage on any subsequent premiums is the same as the bonus percentage applied on the initial premium.

Advantages of a First Year Premium Bonus

- **Enhanced Contract Value:** Credited during the first year to increase the annuity’s accumulated value.
- **Tax Deferred:** Allows tax-deferred accumulation during the length of the contract.²

Here’s how it works:

Janet decides to consolidate assets from other retirement accounts and place \$250,000 into the TopRidge Bonus Annuity. Since these amounts are being sent from other companies and providers it takes some time for the transfers to arrive in her contract. Her transferred amounts are:

Account A – Premium transfer Amount	\$175,000
Account B – Premium transfer Amount	\$50,000
Account C – Premium transfer Amount	\$25,000
Total Premium	\$250,000
Bonus added when Issued (20%)	\$50,000
Total Account Value when Issued	\$300,000

Janet receives the bonus premium of 20% when she opens her TopRidge Bonus Annuity contract. At the end of Year 1, the total contract value would be \$300,000 plus any index credits, minus the 0.95% Rider Charge.³

¹ The Bonus is subject to a recapture if withdrawals above the annual free amount are taken during the Surrender Charge Period.

² Withdrawals are taxable at ordinary income tax rates when taken, and may be subject to an additional 10% federal tax penalty if taken prior to age 59½.

³ The Rider Charge of 0.95% is only assessed during the Surrender Charge Period. Refer to the Statement of Understanding for details.

These changes may include lower current interest rates, higher surrender charges, longer surrender charge periods, lower participation rates or caps, higher spreads, or other changes. The amount of charges or reduction of interest credits may exceed the amount of the bonus.
